DETAILED ACTION

1. This Office Action is in response to Amendments filed 8/16 and 8/31/2004, in reply to the Office Action 5/7/2004.
2. Claims 2-9 are canceled. Claims 10-15 are new.

Allowable Subject Matter

3. Claims 1 and 10-15 are allowed.

REASONS FOR ALLOWANCE

4. The following is an examiner's statement of reasons for allowance:

The prior arts of record taken alone or in combination fail to teach, anticipate, suggest or render obvious the claimed invention, as amended in claim 1, for a link instruction register having a serial input, a serial output, control inputs, and control outputs; the control inputs being coupled to those of the core wrappers; control outputs including plural enable outputs, each enable output being coupled to the enable input of a core wrapper, and the serial input and the serial output of the link instruction register being connected in series with the serial input of the input circuitry and the serial output of the output circuitry, and where the link instruction register further includes an instruction register connected to the serial input and to the control outputs, and a multiplexer connected to the serial input, the serial output, and the select input.

Consequently, independent claim 1 is allowed over the prior arts of record. Claims 10-15 are directly depended upon claim 1 and therefore are also allowable.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
